PROMOX

ADHESION PROMOTER ON SMOOTH SURFACES FOR EPOXY AND POLYURETHANE ADHESIVES

DESCRIPTION AND USES

PRODUCT FOR PROFESSIONAL USE ONLY

Adhesion promoter based on silane polymers in alcoholic solution. It improves the adhesion of two-component adhesives on very smooth surfaces such as marble, palladiana, industrial floors with quartz finish or ceramic, glazed, vitrified surfaces, etc. Suitable as specific thinner for EPOPRIMER and, if necessary, for two-component products such as GOMMAPOL, GOMMAPOL L, HYCOL TILE, SIPOL, SIPOL PLUS, SIPOL FREE and SIGEPOX. Absolutely not suitable to dilute polyurethane adhesives. Not to be used as a degreaser or cleaner of old floors.

PRODUCT FEATURES

Application
Clean cloth

Suitable for indoor use

Suitable for outdoor use

Suitable for heating substrates

Suitable for wheelchairs

Drying time
5-10 min.

Storage
24 months in the original sealed packages

Appearance
Liquid

Color
Transparent

Chemical base
Silane polymers in alcoholic solution

Consumption
30-40 g/sqm

Operating temperature
+10 - +30 °C

Cleaning
Solvente CH500 (as long as the product is fresh)

USE MODE

The substrate must be dry, clean, solid, free of dust and release agents and thoroughly de-waxed and degreased. Apply PROMOX adhesion promoter on the whole surface evenly and in a thin and continuous layer using a clean cotton cloth dampened with product. After complete drying proceed with gluing with two-component polyurethane or epoxy adhesives.

OTHER INFORMATION

Apply a single layer of product without overdoing the quantities indicated. Do not use the product in permanently humid environments or with temperatures below +10°C. PROMOX is absolutely not suitable to dilute polyurethane adhesives such as: LEGNOPOL 2000, GREEN PUR, GREEN PUR PLUS, GOMMAPUR.

INSTRUCTIONS

FOR SAFETY AND DISPOSAL: Consult the relevant safety data sheet before using the product. Gloves are recommended during use. Ventilate the room during and after use. Follow applicable safety regulations. Do not dispose of any residue into the ground, waterways or drains. For the disposal of the product and other waste deriving from the activity, scrupulously follow the provisions of Legislative Decree 152/2006 and subsequent modifications and integrations

(Environmental Consolidation Act). For further information please contact our Technical Assistance Department. The content of this sheet integrates and replaces and cancels the previous one.

WARNINGS: The data provided in this data sheet reflect our best theoretical and practical knowledge. However, since it is not possible for us to go into every detail, such information should not be considered as binding. In cases of doubt, please contact our technical offices.
