

DESCRIPTION AND USES

PRODUCT FOR PROFESSIONAL USE ONLY

Super-intensive water-based cleaner with stripping action, designed for extraordinary treatment of exterior wood decking and wooden structures.

Effectively removes dirt, grease, old layers of oils or wood preservatives, mould, and dark stains on heavily greyed wood, preparing the surface for oil treatment (KIPOS OIL).

WOOD RENEWER STRONG must always be used in combination with WOOD RENEWER to neutralize the surface, promoting optimal brightening of the wood.

PRODUCT FEATURES

Application
Short-haired roller

Application
Scrubbing brush

Suitable for outdoor use

Storage
24 months in the original packaging

Appearance
Liquid

Color
Transparent

Operating temperature
+10 - +30 °C

Dilution
Water

Mix before use

USAGE

Shake the container before use.

Thoroughly wet the surface to be treated with water.

Apply WOOD RENEWER STRONG in its pure form liberally and evenly using a brush or scrubbing brush. Let it act for approximately 15–30 minutes, ensuring the surface remains wet at all times (spray with water if needed).

Scrub the surface with a plastic brush to remove dirt.

Rinse thoroughly using a pressure washer. The product will darken the wood, so always neutralize the surface afterward using WOOD RENEWER. Apply WOOD RENEWER on the still-wet surface with a brush, then allow the surface to dry completely for 24–48 hours before proceeding with the exterior oil finish using KIPOS OIL.

OTHER INFORMATION

Not suitable for parquet or indoor use. Sensitive to frost. Do not apply the product on surfaces that are directly exposed to the sun or are hot.

INSTRUCTIONS

FOR SAFETY AND DISPOSAL: Consult the relevant safety data sheet before using the product. Gloves are recommended during use. Ventilate the room during and after use. Follow applicable safety regulations. Do not dispose of any residue into the ground, waterways or drains. For the disposal of the product and other waste deriving from the activity, scrupulously follow the provisions of Legislative Decree 152/2006 and subsequent modifications and integrations (Environmental Consolidation Act). For further information please contact our Technical Assistance Department. The content of this current sheet supplements and replaces the previous version, rendering it null and void.

WARNINGS: The data provided in this data sheet reflect our best theoretical and practical knowledge. However, since it is not possible for us to go into every detail, such information should not be considered as binding. In cases of doubt, please contact our technical offices.
