

DESCRIPTION AND USES

PRODUCT FOR PROFESSIONAL USE ONLY

Strong water-based cleaner with a brightening action, designed for extraordinary treatment of exterior decking showing greying, layers of old finishes, dirt, and grease.

Suitable for decking made of wood, WPC, thermally treated wood, and exterior wooden structures.

Effectively removes dirt and wood greying, preparing surfaces for subsequent finishing treatments from the KIPOS line.

PRODUCT FEATURES

Application

Short-haired roller

Application

Scrubbing brush

Suitable for outdoor use

Storage

24 months in the original packaging

Appearance

Liquid

Color

Transparent

Operating temperature

+10 - +30 °C

Dilution

Water

Mix before use

USAGE

Shake the container before use.

Thoroughly wet the surface to be treated with water.

Apply the product liberally and evenly in its pure form using a brush or scrubbing brush. Let it act for approximately 10–15 minutes, ensuring the surface remains wet at all times (spray with water if necessary).

Scrub the surface with a plastic brush to remove dirt.

Rinse thoroughly using a pressure washer. Repeat the process if necessary.

Allow the surface to dry completely. A light sanding of the surface is recommended before applying KIPOS OIL for exterior wood.

In other cases, proceed with finishing treatments from the KIPOS line.

OTHER INFORMATION

Not suitable for parquet or indoor use. Sensitive to frost. Do not apply the product on surfaces directly exposed to the sun or that are hot.

For particularly dirty, heavily greyed, and untreated surfaces that have not been maintained for years, it is recommended to carry out a more intensive treatment using WOOD RENEWER STRONG. Refer to the specific technical data sheet for instructions.

INSTRUCTIONS

FOR SAFETY AND DISPOSAL: Consult the relevant safety data sheet before using the product. Gloves are recommended during use. Ventilate the room during and after use. Follow applicable safety regulations. Do not dispose of any residue into the ground, waterways or drains. For the disposal of the product and other waste deriving from the activity, scrupulously follow the provisions of Legislative Decree 152/2006 and subsequent modifications and integrations (Environmental Consolidation Act). For further information please contact our Technical Assistance Department. The content of this current sheet supplements and replaces the previous version, rendering it null and void.

WARNINGS: The data provided in this data sheet reflect our best theoretical and practical knowledge. However, since it is not possible for us to go into every detail, such information should not be considered as binding. In cases of doubt, please contact our technical offices.
