FASTER

ACCELERATING ADDITIVE FOR POLYURETHANE ADHESIVES

ACCESSORY PRODUCTS

DESCRIPTION AND USES

PRODUCT FOR PROFESSIONAL USE ONLY

Accelerating additive for two-component polyurethane adhesives such as GOMMAPUR, GRASS PUR, GRASS PUR PLUS, LEGNOPOL 2000, where fast setting times and accelerated floor commissioning are required.

PRODUCT FEATURES

Suitable for indoor use

Suitable for outdoor use

Storage
24 months in the original sealed packages

Appearance
Liquid

Color
Straw yellow

Chemical base
Blend of selected additives

Operating temperature
+10 - +30 °C

METHOD OF USE

To speed up setting and laying times, FASTER can be added to the 10 kg mixture of polyurethane adhesives such as GOMMAPUR, GRASS PUR, GRASS PUR PLUS, LEGNOPOL 2000. If the entire 100 ml vial of FASTER is used, the pot life of the product drops to about half in standard environmental conditions, resulting in a final setting time of less than 48 hours. Of course, it is possible to use less or more than 100 ml of FASTER to decrease the pot life in the desired amount (please contact our technical offices for any clarifications).

INSTRUCTIONS

FOR SAFETY AND DISPOSAL: Consult the relevant safety data sheet before using the product. Protect your hands and eyes during use. Follow applicable safety regulations. Do not dispose of any residue into the ground, waterways or drains. For the disposal of the product and other waste deriving from the activity, scrupulously follow the provisions of Legislative Decree 152/2006 and subsequent modifications and integrations (Environmental Consolidation Act). For further information please contact our Technical Assistance Department. The content of this sheet integrates and replaces and cancels the previous one.

WARNINGS: The data provided in this data sheet reflect our best theoretical and practical knowledge. However, since it is not possible for us to go into every detail, such information should not be considered as binding. In cases of doubt, please contact our technical offices.
